Do we have AR records for the EJ Analysis as well? We can discuss at 1:30 pm...

Here are my thoughts for today:

I thought we could focus on finishing up the permits today, if possible. I will convert the permits and AE ROD to pdfs and put them in a signature folder on our UIC SharePoint site so they are ready for Darcy's signature. I will share the folder with Darcy once it is ready to go.

Rick, Thanks for making those changes in the Class III permit yesterday. Are you finished with the Class III permit? How are you doing with the Class V permit?

Once I finish my edits to the Class III permit, I will turn to the EJA and RTC.

Once the RTC is final, I will convert it to pdf and add Powertech's comment tables that Mai, Rick and I edited to include responses. Those table will be an appendix to the RTC, right?

Then I can focus on the AR after that.

Anything I missed?

Thanks!
